

# Grand Opening of a Gas Station Brings Excitement to the Town

## **This gas station is closer to the homes making it much more convenient**

The grand opening is tomorrow.

A brand-new gas station opened this week on Butterfield Avenue, giving drivers in town a much-needed option for fueling up. The station features ten pumps and a small convenience store.

This gas station will also serve the neighborhood in many ways.

“We’re excited to serve the community and provide a clean, safe place for people to stop,” said the station manager. Local officials praised the new business for creating over **10 new jobs** in the area.

The gas station plans to host monthly car care events, such as *free tire checks* and *oil-change discounts*. Community members hope it will become more than just a pit stop, but also a helpful service hub for the neighborhood.
